Education

Master of Engineering in Computer Science

CY Tech
09/2025 | France

Intensive Post-Secondary Preparatory Cycle in Mathematics and Physics

Institut Préparatoire Aux Études Scientifiques Et Techniques (IPEST)
09/2023 – 08/2025 | Tunisia

- Ranked among the top 5 preparatory schools globally for French "Grandes Écoles" engineering exams (L'Étudiant 2025).

National Baccalaureate in Mathematics

Lycée Pilote Sousse
09/2022 – 06/2023 | Tunisia

Result: 18.5/20(A+ average) — Graduated with **Highest Honors and Jury's Congratulations**

Organisations

Leo Youth Club

Youth Volunteer
03/2020 – 2025 | Tunisia

- Community support and participation in solidarity initiatives.
- Organization of youth development activities.

Scouts

Patrol Leader
2015 – 2025 | Tunisia

- Managed and mentored a group of youth members, coordinating weekly activities and outdoor camps.
- Developed strong team leadership, problem-solving, and organizational skills over a 10-year tenure.

Professional Experience

Private Tutor (Math/Physics)

Complétude
01/2026 – Present | France

- Conducted intensive 1-on-1 and group sessions for high school seniors preparing for the National Baccalaureate.
- Enhanced students' academic methodology, autonomy, and problem-solving skills through consistent progress tracking and personalized coaching.

Game Development Instructor

GoMyCode
08/2023 – Present | Tunisia

- Student Mentorship: Provided personalized academic support and technical guidance to students throughout their learning journey.
- Technical Troubleshooting: Conducted advanced debugging and code optimization sessions to ensure project functionality.

Sales Advisor / Consultant

Ceramica
2022 – 2025 | Tunisia

- Website Development & Optimization: Enhanced the company's digital presence by improving website content, structure, and search engine visibility.

Certificates

Certified Member – African Debate Club

Focused on advancing persuasive communication, critical thinking, and structured argumentation.

Certified Participant – Soliya Connect Program

Intercultural Collaboration: Engaged in a Virtual Exchange with a diverse cohort of students from Western and Arab societies to discuss complex global issues.

Professional Certification: Lead Game Developer (C# & Unity)

Architected an elite-tier capstone project featuring advanced AI and 3D physics, earning the highest professional certification and a leadership role mentoring student cohorts in complex engine architecture

Languages

English

: C1 (Advanced) | TOEFL iBT Score: 104/120

French

Arabic

Projects

Java Development: Pacman Arcade Project

2025 – Present

- Technical Stack: Developed a 2D game engine using Java and Object-Oriented Programming (OOP).
- Core Logic: Implemented collision detection and autonomous "Ghost" AI through complex algorithmic structures.

Java Development: Industrial Warehouse Robotics Simulator

2025 – Present

- System Architecture: Architected a complex Object-Oriented (OOP) application simulating autonomous robot navigation within a depot hub featuring narrow corridor constraints.
- Role-Based Access Control (RBAC): Integrated a multi-user interface with specific functionalities and permissions tailored to different staff member roles.
- Algorithm Design: Developed logic for collision avoidance and path optimization, proving readiness for advanced Software Engineering and Robotics modules.

- Marketing & Communication Strategy: Contributed to integrated marketing and communication strategies designed to increase client acquisition and brand engagement.
- Ceramics Workshop Facilitation: Led educational workshops, providing personalized instruction, pedagogy, and technical supervision to diverse groups of students.

Interests

Music & Performance

- Lead Guitarist: Awarded "Best Guitarist" at the IPEST Artistic and Sports Festival (2025) in Tunisia.
- Concert Performance: Performed as a featured musician in two major live concerts (2024, 2025), demonstrating high-level technical skill and stage presence.
- Creative Discipline: Developed advanced proficiency through years of dedicated practice, successfully balancing rigorous engineering studies with artistic excellence.

Award-Winning Multimedia Creator

- First Prize Winner: Awarded "Best Destination Vlog" in a high-profile competition for a cinematic travelogue of IPEST(Tunisia).
- Digital Storytelling: Conceptualized, filmed, and edited an engaging vlog that effectively promoted the institution's campus life and cultural identity to a wide audience.
- Technical Mastery: Demonstrated advanced skills in professional video editing, color grading, and rhythmic pacing to create "audience-focused" promotional content.

Mathematics Olympiad Participant

- Competitive Problem Solving: Selected to compete in high-level mathematical challenges, demonstrating advanced logical reasoning and "out-of-the-box" analytical thinking.
- Theoretical Mastery: Applied complex principles of Number Theory, Combinatorics, and Geometry to solve non-standard problems under rigorous time constraints.
- Academic Rigor: Demonstrated the persistence and intellectual discipline required for elite-level STEM competitions, paralleling the demands of the IPEST and CY Tech curricula.

Business Project: Arts Commission Club
2021 – Present

- Market Mediation: Acted as the primary liaison between student artists and external clients, successfully securing and negotiating professional commission offers.
- Ambassadorial Impact: Represented the student body to the local community, demonstrating "Intercultural Intelligence" and the ability to promote an institutional brand.

Advanced Game Architecture: 3D Action-RPG (Unity/C#)

2023 – 2023

- AI & Navigation: Developed challenging NPC behaviors using Unity NavMesh and custom decision trees to simulate strategic combat encounters.
- Outcome: Demonstrated expert-level mastery of the Full Development Lifecycle, serving as a primary technical reference for my role as a Lead Instructor.
